Future Objectives

I am a student in 11th grade aiming to attend college as a Computer Science/Computer Engineering Major with a minor in Finance. My primary experience is in video game development and front-end applications, but I would be interested in learning how to develop back-end systems. I am also open to work in a completely new area. I am pursuing an internship to gain experience in the industry, expand my skill set, and contribute to real-world applications.

Education

Central High School - Saint Joseph, Missouri

- GPA: 4.0 (Unweighted), 4.39 (Weighted)
- ACT: 35
